33																																			
34			NOTE 1:	india 1 appears to have antenna and/or radio issue. First Test with radio on o/s antenna did not hear Tango 3 (o/s antenna),																															
35				and heard Tango 1 at a readability of only 1 (unreadable). When India 1 used her H/t with rubber ducky inside house																															
36				india 1 copied T3 at Readability of Q 5 and copied Tango 1 at Readability of Q4																															
37			NOTE 2:	Tango 3 (o/s antenna) appears to have antenna issue. Intial test did not have any copy on S1 (o/s antenna), but on second test copied Q4.																															
38				As to copy on I1, on first test, had Q2 copy, on wnd test had Q5 copy.																															
39			Note 3:	Bravo 2 needs antenna system check. Interference?																															
40																																			
41				Tango 1 was using H/T (Alinco) for purposes of this Test. Reported good copy using O/S antenna (which results are not shown above.																															
42				ALL SYSTEMS SHOULD BE CHECKED BY STATION OPERATORS (COAX, HEIGHT, CONNECTIONS, ETC...)
