

Shasta Emergency Radio Nets**[Community Service Project of SOKERRT]****This is not a substitute for 911****Highway 44 Road Markers and Locations for Reporting - (including Smoke/Fire Reporting)**

Approx. Mile Marker	Location Description	Note the following:
0	I-5 at Hwy 44, Redding	<p>When choosing to report information, be sure to PARK YOUR VEHICLE IN A SAFE LOCATION AND OBEY ALL TRAFFIC LAWS.</p> <p>Note... that at Shingletown, Caltrans has reset the mile markers due to a change in the location of the formal start of Hwy 44 in Redding. This reset results in a discrepancy of mileage values between Wilson Hill Rd and Alward Way. If you use the data in the table you will be okay for purposes of reporting your location for Fire/Smoke.</p> <p>Options</p> <p>If you choose not to use the Hwy 44 locations then report your exact residence, work, or travel location using street names and cross streets, etc.</p> <p>Also, your providing nearest Hwy. 44 marker may help Net Control. Thus:</p> <p>“ I am at Figaro and Shasta Forest Dr. which is North East of Hwy 44 marker 26.00”.</p> <p>Data gathered on 4/23/16 using a digital odometer, Garmin GPS, and current Caltrans mile markers.</p> <p>[See Attribution below]</p>
